Maps of China

<https://bit.ly/3aPzzXX>

Human Physical Features of China.

<https://bit.ly/3gobQiA>

Video links

Introducing China- <https://bit.ly/34qNwu2>

Task 1&2- Use your own knowledge to create a spider diagram showing what you already know about China. Now watch the introducing chian video and add to your notes to show what China is like.

Task 3- Use the Maps of China information to write a short paragraph describing the location of China.

Physical Geography is about the Earth's natural features (mountains, weather, rivers, etc.)

Human Geography is about how human activity affects or is influenced by the earth's surface.

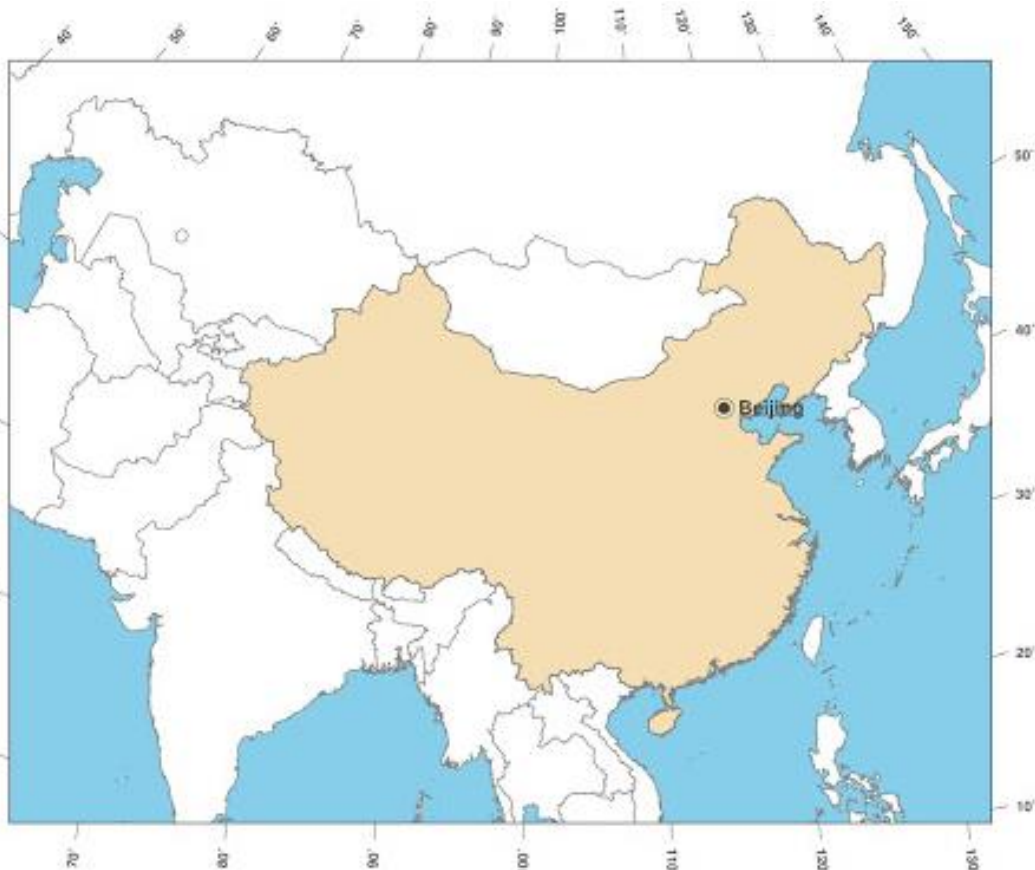

Main task 4. (10mins)

Use the 'Human and physical features maps' to add the bordering countries and following cities to your map: Shanghai, Guagzhou, Chongqing, Qingdao, Tianjin, Shanyang, Wuhan, Tianjin. Now label at least 5 of the bordering countries. For example, Mongolia, Russia, North Korea, Vietnam and Laos.

Main task 5 (10mins)

Now use a colored pencil to shade the map to show the relief of the land. Use this map to help you! You should shade the highest areas in a darker colour and the lower areas in a lighter shade.

Key changes in China.

<https://bbc.in/2Qmul7g>

China headlines- <https://bit.ly/2YsailF>

Video links

Time Lapse of China-

<https://bit.ly/2EyqSFu>

Watch the Time Lapse of China video. Use this to write a quick description of what has happened to China's cities overtime. Why do you think this change has happened?

Look at the key changes in China research link. Use this to create a spider diagram of the key changes that have happened in China over the last 40 years. You should include at least 10 pieces of information.

Key Changes in China

Read the news paper headlines link. Pick out three social (about people), 3 economic (about money) and 3 environmental (about the natural world or pollution) headlines and add them to the table. Next to each one, say if you think it is a positive or negative change.

Social	Economic	Environmental

Population and migration in Asia

<https://bbc.in/3aU26ve>

Rural to urban migration story.

<https://bit.ly/34p9fml>

Video links

Rural to urban migration-

<https://bit.ly/2EcuFIM>

China: The largest migration in

history <https://bit.ly/3lfskgP>

Watch the rural-urban migration video. What is rural to urban migration?

Watch the 'China The largest migration in history' and read the 'population and migration in Asia' link. Use these to describe what the population in China is doing and **WHY**.

Read the rural to urban migration story. Use the story to write a letter pretending that you are Zhao and you are explaining what your life is like now that you have moved to the city.

You need to make sure you have (tick them off as you go):

- I have addressed the letter Dear wife...
- I have explained the Urban area where I am. (Where I am living, what my quality of life is like, **why did I come? Why is this environment like it is?**)
- I have explained what the journey was like from the rural to the urban area
- I have explained why I left the Rural area (push factors), what it is like to live here and why it is like this.
- I have explained what should be done in the next 12 months (should the rest of the family move to the city too?)

Challenge: Evaluate the advantages and disadvantages of living in each place.

Products made in China.

<https://bit.ly/3hpu5Fz>

Pros and Cons of outsourcing.

<https://bit.ly/3gtYEsp>

Video links

Apple manufacturing in China (optional but highly recommended!)

<https://bit.ly/3aR2DOJ>

Use the 'Products made in China' link to to create a spider diagram of the different products that are made in China.

Challenge: Include facts and figures to add details to your notes.

Products made
in China.

Outsourcing is obtaining key products from alternative, cheaper locations - often abroad - than original home-sources.

China has been a key country where companies have outsourced manufacturing to for over 20 years. There are a range of positives and negatives of this outsourcing. Use the information 'Pros and cons of outsourcing' to create a table detailing the positives and negatives of outsourcing to China.

Positives	Negatives

One Child Policy- <https://bit.ly/3gpGJTN>

Video links

Gender Imbalance <https://bit.ly/2Ysfwtw>
 Prevented births- <https://bit.ly/2QmYbOa>
 Baby hatches- <https://bit.ly/32nGd3A>
 Two child policy? <https://bit.ly/3hpadfV>

Look at the population graph.
 Describe the key changes to China's population since 1500.

Use the independent research link 'The One Child Policy to answer the following questions about the policy.

The Original Policy

When was it introduced?

What were the rules of the policy?

Disobeying the rules

What were 3 impacts of breaking the rules?

What were the disadvantages of the policy?

Give 3 negative impacts:

What were the benefits of the policy?

Give 3 benefits of the policy:

Changes to the policy.

Who is allowed to have two children?

Why do some parents have 2 children?

What is now prohibited?

What happened in Sichuan?

Consequences of the policy- Give 3 consequences.

1-

2-

3-

Watch the videos on gender imbalance, prevented births, baby hatches and the two child policy. Use this to create notes on the range of impacts of the One Child policy in China.

China's environmental issues-
<https://bit.ly/3lo218e>

Video links

Environmental problems- <https://binged.it/2Qi4BhJ>
Forest City (optional) <https://bit.ly/3aR02nW>

Watch the 'Environmental problems' video. Use it to create spider diagram of the different environmental issues facing China.

Environmental
problems.

1. How much of China's farm land is polluted?
2. What is to blame for the polluted farmland?
3. How many children get respiratory diseases from the air pollution?
4. How many people in China die each year from pollution related illnesses?
5. What is the economic cost of air pollution to the Chinese economy?
6. What percent of China's river and lakes are polluted?
7. What is the name of the River that has been irreversibly polluted?
8. What does sulphur dioxide contribute to?

 **Explain the different impacts of China's economic growth. To fully explain this, try to link back to previous lessons about what the causes of this environmental damage could be! Manufacturing? Population growth?**
