

FULSTON MANOR SCHOOL GEOGRAPHY LEARNING JOURNEY

GEOGRAPHY

Continue your lifelong love of learning and personal development

Apprenticeship

College

University

Workplace

In this topic we study where our energy resources come from, which countries are more energy secure, and how we can use energy more sustainably.

Consuming Energy Resources

In this topic we study how tropical rainforests and taiga forests are increasingly under threat and how they can be sustainably managed.

Forests Under Threat

In this topic we study how the natural systems within the biosphere function and what humans are doing that have caused changes to the systems.

People and the Biosphere

For our first topic of year 11 we study UK's human geography, with a focus on how London has changed due to deindustrialisation.

Evolving UK Human Landscapes

YEAR 11

In this topic we conduct our fieldwork investigations of coastal areas under threat from erosion and urban areas experiencing differences in quality of life.

Geographical Investigations
Evolving UK Physical Landscapes

In this topic we study the causes and consequences of uneven development around the world.

Development Dynamics

In our first unit of the GCSE we study the causes, effects and responses to a range of global tectonic and hydro-meteorological hazards.

Hazardous Earth

YEAR 10

As an introduction to our GCSE we study 2 contrasting megacities including the causes and impacts of their growth.

Challenges: Contrasting Cities

Challenges of an urbanising world

Here we study the causes of rapid urbanisation, as well as the characteristics and changes to cities over time.

Fabulous Fieldwork

Terrifying Tectonics

In term 3 students study global tectonic hazards, including the causes and impacts.

In term two students study oceans and how they are currently under enormous threat.

As part of the topic Personal Geography Students will learn how to 'think' like a Geographer and work on the use of map skills in our local environment.

My Place and Personal Geographies
Raging Rivers

Students develop their knowledge of hydrology by studying rivers and flooding. In this topic we learn about the UK and India.

Gorgeous Glaciers

Dynamic Development

Our development topic focuses on the different methods of measuring development and the causes of inequalities around the planet.

Radical Russia

Rocks Rock!

As part of the topic on geology, pupils will develop their understanding of the different types of rocks and how they are shaped by human and physical processes.

YEAR 8

Incredible India

Students complete a country study of India. We will learn about the climate as well as the city of Mumbai.

PRIMARY SCHOOL

WELCOME

HOW TO BECOME AN EXCELLENT GEOGRAPHER – INTRODUCTION TO GEOGRAPHY

Students will practice their location knowledge including the use of OS Maps, Geographical skills and GIS. There will be a fieldwork opportunity in the local area
